NOTES:

- Members are not required to wear their military uniform when participating in test alerts. In other instances, the requirement to wear the uniform may be waived only when specifically authorized in advance by USAFMPC (AFPMRDR). (Also, see AFM 35-10.)
- These members may not exceed 48 paid INACDUTRA periods each fiscal year.
- A Category A unit member may participate in and be paid for more than the normal maximum number of training periods authorized each member during the fiscal year, when due to reassignment or attachment, his attendance at all ordered UTAs results in exceeding such member's maximum. For example, the possibility exists that a member will transfer during the month from a unit after he has attended the losing unit's scheduled UTA and into a unit that has not conducted that month's scheduled UTA.
